

## PETTIGREW NAMED TOP WORKPLACE 3RD STRAIGHT YEAR

**TOP  
WORK  
PLACES  
2018**

AlbuquerqueJournal

Pettigrew & Associates has been awarded a 2018 Top Workplaces honor by The Albuquerque Journal for the third consecutive year. The Top Workplaces list is based solely on the results of an employee feedback survey administered by Energage LLC a leading provider of technology-based employee engagement

tools. Several aspects of workplace culture were measured, including alignment, execution and connection.

"I feel I am encouraged to reach my highest potential," one employee in Engineering commented in the Top Workplaces survey. "I am involved in what is going on, people here care and we get to work on truly impactful projects in our community," another employee commented.

"We have worked diligently over the last decade to develop a top-notch workplace culture at Pettigrew. To be a Top Workplace for the third consecutive year signifies our team's shared values," says Pettigrew President & CEO Debra Hicks.

### *Unparalleled Precision. Unrivalled Performance.*

The Trimble SX10 Scanning Total Station sets a new standard for accuracy, capability and performance. Pictured here are images from Trails End Road in Eddy County gathered in one short site visit to make sure it was built to the specified design.

## advancing technology of **SURVEYING**

It's a revolution. In one unit. Pettigrew's new Trimble SX10 is capable of collecting any combination of high-density 3D scan data, imaging and high-accuracy total station data in one trip - saving TIME and MONEY on every job.
